

FESTIBEETY

Caterer Rocio Leiner and designer Maria Bojorquez started doing event planning together in Mexico in 2011. In 2019, they decided to bring their dynamic combination of delicious food and beautiful event designs to the U.S., and started Festibeety, based out of Waukesha.

Maria and Rocio are event planning specialists who are passionate about helping their customers make beautiful memories with their events. They take pride in bringing happiness to their clients and making their dreams a reality.

They view every client as unique and each event as one of a kind, and their creativity, professionalism, quality, and innovation have made Festibeety a go-to event-planning company in the metro Milwaukee area.

Rocio sought training, coaching and financial assistance from WWBIC's Hispanic programming offerings. "WWBIC helped us to develop our business plan," says Leiner.

Festibeety currently serves the Waukesha and Milwaukee areas, but in the future, Rocio hopes to expand the business into other communities.

“ WWBIC helped us to develop our business plan.”
