

MARY GALARZA (MG) NAIL SYSTEM

Dedicated to providing nail products that will help their customers have the most beautiful nails, Mary Galarza Nail System began in Maria Sosa's home in 2019. In 2020, she made it official, and in 2023, moved to a physical location.

This system offers a vast selection of nail products including Acrylic, Monomer, Gels, POLYGel, UV Led nail lamps, drill sets, and paint brushes unique to Milwaukee. Located in Greenfield, customers can stop in or shop online. Sosa encourages customers to take their time, look around and reach out.

Sosa is grateful for WWBIC's Spanish language programming, and for their assistance in securing a Kiva loan and grants. In addition to these funding opportunities, Maria received guidance from all of the "teachers" at WWBIC, and she was able to make it through hard times and work on her business plan as a result.

"WWBIC has helped me through many of my difficulties. I thank their staff for such good treatment."

To new business owners, Sosa offers this advice about WWBIC:

"Before opening or during the process of opening, you must belong to this great group because it will be very helpful."

“ WWBIC has helped me through many of my difficulties ... you must belong to this great group because it will be very helpful.”
